Inclinabile su 2 assi.  
2 axis slope.  
Neigung von 2-Achsen.

Bilanciamento dello stampo.  
Balance of the die.  
Gleichgewicht der Werkzeuge.

Prezzo competitivo.  
Competitive price.  
Wettbewerbsfähigen Preis.

Utilizzo aria compressa 2-5 BAR.  
Use compressed air.  
Verwendung von Druckluft 2-5 BAR.

Riduzione dei danni durante le manutenzioni.  
Damage reduction of during maintenance.  
Reduzierung von Schäden bei der Wartung.

Uso diretto sotto la pressa.  
Direct use under the press.  
Direkte Verwendung in der Presse.

Facilità di smontaggio e manutenzione.  
Easiness of disassembly and maintenance.  
Einfachheit der Demontage und Wartung.

Facilità di applicazione e regolazione dei scivoli sulla slitta.  
Easiness of application and regulation of metal plates on the slide.  
Je nach Anforderungen können Transportbleche unterschiedlicher Abmessungen angebracht werden.

Facilità nella manutenzione.  
Easy maintenance.  
Einfache Wartung.

Dispositivo con alimentazione in bassa tensione, 24V / 2A.  
Device with low voltage power supply, 24V / 2A.  
Niederspannungsgerät, 24V / 2A.

Presenza di punti di fissaggio.  
Presence of fixing points.  
Befestigungspunkte.

Grande potenza di estrazione.  
Great power of extraction.  
Sehr hohe Abstreifkräfte.

Corsa lunga.  
Long stroke.  
Leistungsstarker Hub.

Materiali di alta qualità.  
High quality materials.  
Hochwertige Materialien.

Operatività garantita in orizzontale.  
Horizontal travel guaranteed.  
Arbeitsweise in der horizontalen Position garantiert.

Intercambiabilità.  
Interchangeability.  
Austauschbarkeit.

Lunga durata.  
Long duration.  
Lange Lebensdauer.

Basso consumo.  
Low power consumption.  
Geringer Verbrauch.

Lubrificare con olio adeguato.  
Lubricate with appropriate oil.  
Mit geeignetem Öl schmieren.

Prodotto disegnato e realizzato in Italia da Newstark.  
Product designed and manufactured in Italy by Newstark.  
Produkt konstruiert und hergestellt in Italien von Newstark.

Velocità massima: 40 colpi al minuto.  
Maximum speed: 40 strokes per minute.  
Höchstgeschwindigkeit: 40 Hube pro Minute.

Velocità massima: 50 colpi al minuto.  
Maximum speed: 50 strokes per minute.  
Höchstgeschwindigkeit: 50 Hube pro Minute.

Inclinazione minima.  
Minimum inclination.  
Minimale Neigung.

Rumorosità minima.  
Minimum noise.  
Geräuscharm.

### **NEWSTARK, PER SPINGERSI OLTRE**

Il nome Newstark è nato per essere leader nell'innovazione di componenti ad alte prestazioni per stampi. Partner ideale per garantirvi soluzioni tecnologicamente avanzate, con un know-how tecnico specifico, in sintonia con le vostre esigenze di performance e qualità. Newstark, brand di Essemec S.r.l. Unipersonale, azienda con ventennale esperienza nel settore metalmeccanico, rappresenta così la fusione tra tradizione-meccanica ed innovazione tecnologica.

### **NEWSTARK, TO GO FURTHER**

The name of Newstark was born to be leader in innovation of high performance components for dies. Ideal partner to ensure technologically advanced solutions, with specific technical know-how according with your needs for performance and quality. Newstark, a brand of Essemec S.r.l. Unipersonale, company with twenty years experience in metal mechanic, thus represents the fusion of tradition-mechanical and technological innovation.

### **NEWSTARK, UM GRENZEN ZU ÜBERSCHREITEN**

Der Name Newstark steht für Hochleistungskomponenten in Werkzeugen und ist damit der ideale Partner für fortschrittliche Lösungen mit besonderem technischen Know-How, der Ihren Ansprüchen an Leistung und Qualität gerecht wird. Newstark ist ein registrierter Markenname von Essemec S.r.l. Unipersonale, einem Unternehmen mit zwanzig Jahren Erfahrung im Maschinenbau, und vereint Maschinenbautradition mit Innovation.

### **NEWSTARK, POUR ALLER PLUS LOIN**

Le nom Newstark est né pour être un leader dans l'innovation de composants pour outils de découpe à haute performance. C'est le partenaire idéal pour vous garantir des solutions technologiquement avancées, avec un savoir-faire technique spécifique, en accord avec vos exigences de performance et de qualité. Newstark, marque d'Essemec S.r.l. Unipersonnel, une entreprise ayant vingt ans d'expérience dans le secteur de la métallurgie, représente donc la fusion entre la tradition-mécanique et l'innovation technologique.

# SICUREZZA

SAFETY / SICHERHEIT / SÉCURITÉ

## SICUREZZA / SAFETY / SICHERHEIT / SÉCURITÉ

EVITARE QUALSIASI MODIFICA MECCANICA. / AVOID ANY MECHANICAL MODIFICATION. / VERMEIDEN SIE MECHANISCHE ÄNDERUNGEN. / ÉVITER TOUTE MODIFICATION MÉCANIQUE.

UTILIZZARE DISPOSITIVI DI SICUREZZA INDIVIDUALI QUALI: OCCHIALI E GUANTI. / USE PERSONAL SAFETY EQUIPMENT SUCH AS: GOGGLES AND GLOVES.  
BENUTZEN SIE PERSÖNLICHE. / SCHUTZAUSRÜSTUNG, WIE: SCHUTZBRILLE UND HANDSCHUHE. / UTILISER DES ÉQUIPEMENTS DE SÉCURITÉ INDIVIDUELS TELS QUE: LUNETTES ET GANTS.

NON DISATTIVARE I DISPOSITIVI ELETTRONICI DI SICUREZZA (SE PRESENTI). / DO NOT SWITCH OFF THE ELECTRONIC SAFETY DEVICES (IF ANY). / SCHALTEN SIE NICHT DIE ELEKTRONISCHE SICHERHEITSEINRICHTUNGEN (FALLSVORHANDEN). / NE PAS DÉACTIVER LES DISPOSITIFS DE SÉCURITÉ ÉLECTRONIQUES (S'IL Y EN A).

UTILIZZARE SOLO RICAMBI ORIGINALI. / USE ONLY ORIGINAL SPARE PARTS. / VERWENDEN SIE NUR ORIGINAL-ERSATZTEILE. / N'UTILISER QUE DES PIÈCES DE RECHANGE D'ORIGINE.

ATTENZIONE: NELLA NOSTRA ATTREZZATURA È PRESENTE UN CILINDRO A GAS IN PRESSIONE! SI PREGA DI CONSULTARE IL NOSTRO MANUALE DI USO E MANUTENZIONE!  
ATTENTION: IN OUR EQUIPMENT IS PRESENT A GAS CYLINDER UNDER PRESSURE! PLEASE REFER TO OUR INSTRUCTION MANUAL.  
ACHTUNG: IN UNSEREN ANLAGEN GIBT ES GASDRUCKFEDER, DER UNTER HOHEM DRUCK STEHT! BITTE KONSULTIEREN SIE UNSERE WARTUNGSANWEISUNG!  
ATTENTION: UN CYLINDRE À GAZ SOUS PRESSION EST PRÉSENT DANS NOTRE ÉQUIPEMENT! CONSULTER NOTRE MANUEL D'UTILISATION ET DE MAINTENANCE!

TUTTI I CILINDRI HANNO UNA CORSA DICHIARATA DAL COSTRUTTORE. QUINDI IL VALORE NOMINALE CU È COMPLETAMENTE UTILIZZABILE. SI RACCOMANDA QUINDI DI NON ECCEDERE DALLA CORSA MASSIMA DICHIARATA NEL CATALOGO PER PREVENIRE EVENTUALI EXTRACORSE, CAUSATE DA MODIFICHE O ERRORI SUGLI STAMPI, CON DANNI IRREPARABILI ALLE CAM E GRAVI RISCHI PER LA SICUREZZA.

ALL NITROGEN CYLINDERS HAVE A STROKE STATED BY THE MANUFACTURER. THEREFORE THE NOMINAL VALUE (CU) IS FULLY APPLICABLE. HOWEVER, IT IS RECOMMENDED NOT TO EXCEED THE MAXIMUM STATED ON THE RACE CATALOG IN ORDER TO AVOID THE RISK OF ANY EXTRA STROKE CAUSED BY CHANGES OR ERRORS IN TOOLS. THIS WOULD RESULT IN IRREPARABLE DAMAGES TO THE CAMS AND SERIOUS DANGER TO PERSONNEL.

ALLE ZYLINDER SIND MIT EINER HUB VOM HERSTELLER ANGEGBENEN. DAHER KANN DER NENNWERT CU KOMPLETT VERWENDET WERDEN. WIR EMPFEHLEN, AUF DIE MAXIMAL AUF DAS RENNEN ANGEGBENEN NICHT ZU ÜBERSCHREITEN, UM EINEN EVENTUELLEN ÜBERLAUF ZU VERMEIDEN, DER DURCH ÄNDERUNGEN ODER FEHLER AN DEN PRESSFORMER VERURSACHT WERDEN UND IRREPARABLE SCHÄDEN AN DEN STANZEINHEITEN SOWIE SCHWERWIEGENDE SICHERHEITSRISIKOS HERRORRUFEN KÖNNTE.

TOUS LES CYLINDRES ONT UNE COURSE INDIQUÉE PAR LE FABRICANT. LA VALEUR NOMINALE CU EST DONC PLEINEMENT UTILISABLE. IL EST DONC RECOMMANDÉ DE NE PAS DÉPASSER LA COURSE MAXIMALE INDIQUÉE DANS LE CATALOGUE AFIN D'ÉVITER D'ÉVENTUELLES SURCOURSES, DUES À DES MODIFICATIONS OU DES ERREURS SUR LES OUTILS DE DÉCOUPE, AVEC DES DOMMAGES IRRÉPARABLES AUX CAMES ET DES RISQUES GRAVES POUR LA SÉCURITÉ.

DURANTE IL CARICAMENTO NON ECCEDERE LA PRESSIONE MASSIMA RACCOMANDATA PER OGNI MODELLO. / WHEN CHARGING DO NOT EXCEED THE MAXIMUM RECOMMENDED PRESSURE FOR EACH MODEL. / ÜBERSCHREITEN SIE WÄHREND DER LADUNG DEN FÜR JEDES MODELL ANGEGBENEN DRUCKWERT NICHT. / LORS DU CHARGEMENT, NE PAS DÉPASSER LA PRESSION MAXIMALE RECOMMANDÉE POUR CHAQUE MODÈLE.

DURANTE LO SCARICAMENTO CON L'USO DEL DISPOSITIVO DDS, ORIENTARE IL FLUSSO DEL GAS IN DIREZIONE OPPOSTA ALL'OPERATORE. / WHEN DISCHARGING USING A DDS DEVICE, POINT THE GAS FLOW AWAY FROM OPERATOR. / RICHTEN SIE DEN GASFLUSS WÄHREND DER ENTLADUNG MIT HILFE DER DDS-VORRICHTUNG IN DIE DEM BEDIENER ENTGEGENGESETZTE RICHTUNG. / LORS DU DÉCHARGEMENT À L'AIDE DU DISPOSITIF DDS, ORIENTER LE FLUX DE GAZ DANS LA DIRECTION OPPOSÉE À CELLE DE L'OPÉRATEUR.

EVITARE QUALSIASI LAVORAZIONE MECCANICA O IMPATTO SU CORPO E STELO. / AVOID ANY MECHANICAL TOOLING OR IMPACT ON THE BODY AND THE ROD.  
VERMEIDEN SIE MECHANISCHE BEARBEITUNGEN JEDER ART ODER SONSTIGE EINWIRKUNGEN AUF KÖRPER UND KOLBENSTANGE. / ÉVITER TOUT USINAGE MÉCANIQUE OU IMPACT SUR LE CORPS ET LA TIGE.

DURANTE IL CARICAMENTO ASSICURARSI CHE LO STELO SIA ESTRATTO AL 100%. PER CILINDRI PRIVI DI FORO FILETTATO SULLO STELO, CARICARE INIZIALMENTE CON 5 BAR (75 PSI) PER ESTRARRE COMPLETAMENTE LO STELO, QUINDI PROCEDERE FINO ALLA PRESSIONE DESIDERATA.

ENSURE THAT THE ROD IS 100% EXTRACTED WHEN CHARGING. FOR CYLINDERS WITHOUT A THREADED HOLE ON THE ROD, INITIALLY CHARGE TO 5 BAR (75 PSI) TO EXTRACT THE ROD COMPLETELY THEN CHARGE TO THE REQUIRED.

STELLEN SIE WÄHREND DER LADUNG SICHER, DASS DER SCHAFT GANZ AUSGEFAHREN IST. FÜR ZYLINDER OHNE GEWINDEBOHRUNG AM SCHAFT LADEN SIE DEN DRUCK ZU BEGINN BEI 5 BAR (75 PSI), UM DEN SCHAFT GANZ HERAUSZUZIEHEN. STEIGERN SIE DEN DRUCK DANACH AUF DEN GEWÜNSCHTEN WERT.

LORS DU CHARGEMENT, S'ASSURER QUE LA TIGE EST EXTRAITE À 100%. POUR LES CYLINDRES SANS TROU FILETÉ SUR LA TIGE, IL FAUT D'ABORD CHARGER AVEC 5 BAR (75 PSI) POUR EXTRAIRE COMPLÈTEMENT LA TIGE, PUIS PROCÉDER À LA PRESSION SOUHAITÉE.

SOLO PERSONALE QUALIFICATO DOVREBBE ESEGUIRE LA MANUTENZIONE. EVENTUALI ERRORI POSSONO ESSERE CAUSA DI GRAVI RISCHI PER LA SICUREZZA O LIMITARE LA DURATA DEI CILINDRI. PRIMA DI ESEGUIRE QUALSIASI INTERVENTO SCARICARE COMPLETAMENTE LA PRESSIONE E ASSICURARE CHE LO STELO SIA COMPLETAMENTE COMPRESSO NEL CORPO.

MAINTENANCE MUST ONLY BE CONDUCTED BY QUALIFIED PERSONNEL. ERRORS WOULD CAUSE SERIOUS INJURY OR REDUCE THE WORKING LIFE OF THE CYLINDERS. BEFORE CARRYING OUT ANY WORK ON THE SYSTEM, FULLY RELEASE ALL PRESSURE AND ENSURE THAT THE ROD IS FULLY RETRACTED INTO THE BODY.

DIE WARTUNG SOLLTE NUR VON QUALIFIZIERTEN PERSONAL VORGENOMMEN WERDEN. ETWAIGE FEHLER KÖNNEN SCHWERWIEGENDE SICHERHEITSRISIKEN HERRORRUFEN ODER DIE LEBENSDAUER DER ZYLINDER EINSCHRÄNKEN. ENTLADEN SIE DEN DRUCK UND STELLEN SIE SICHER, DASS DER SCHAFT KOMPLETT IN DEN KÖRPER EINGEFÜHRT IST, BEVOR SIE EINGRIFFE VORMEHMEN.

SEUL UN PERSONNEL QUALIFIÉ DOIT EFFECTUER LA MAINTENANCE. LES ERREURS PEUVENT ENTRAÎNER DE GRAVES DANGERS POUR LA SÉCURITÉ OU LIMITER LA DURÉE DE VIE DES CYLINDRES. AVANT D'EFFECTUER TOUTE INTERVENTION, RELÂCHER COMPLÈTEMENT LA PRESSION ET S'ASSURER QUE LA TIGE EST ENTIÈREMENT COMPRIMÉE DANS LE CORPS.

PRIMA DI GETTARE QUALSIASI CILINDRO A GAS, SCARICARE COMPLETAMENTE LA PRESSIONE. / BEFORE DISPOSING OF A GAS SPRING CENSURE THAT ALL RESIDUAL PRESSURE IS FULLY EXHAUSTED. / VOR DER ENTSORGUNG EINES GASZYLINDERS MUSS DER DRUCK KOMPLETT ABGELASSEN WERDEN. / AVANT DE JETER UN CYLINDRE À GAZ, VIDER COMPLÈTEMENT LA PRESSION.

SE UN CILINDRO HA LA STRUTTURA DANNEGGIATA, PRIMA DI QUALSIASI MANIPOLAZIONE, SCARICARE COMPLETAMENTE LA PRESSIONE. / IF A CYLINDER HAS STRUCTURAL DAMAGE, FULLY EXHAUST ALL PRESSURE BEFORE ANY FORM OF HANDLING. / WEIST DIE STRUKTUR EINES ZYLINDERS BESCHÄDIGUNGEN AUF, MUSS VOR JEDEM EINGRIFF DER DRUCK KOMPLETT ABGELASSEN WERDEN. / SI UN CYLINDRE A UNE STRUCTURE ENDOMMAGÉE, VIDER COMPLÈTEMENT LA PRESSION AVANT TOUTE MANIPULATION.

ATTENZIONE: SI PREGA DI FARE SEMPRE RIFERIMENTO ALLE NORMATIVE DI SICUREZZA VIGENTI. / ATTENTION: PLEASE ALWAYS REFER TO THE CURRENT SAFETY REGULATIONS. / ACHTUNG: BITTE LESEN SIE IMMER DIE AKTUELLEN SICHERHEITSBESTIMMUNGEN. / ATTENTION: TOUJOURS SE RÉFÉRER AUX RÈGLES DE SÉCURITÉ EN VIGUEUR.

## CAM MAE

- IT** Modello rappresentante il top di gamma della produzione Newstark, che ingloba soluzioni innovative e uniche: sistema di estrazione dell'utensile dalla lamiera mediante azoto integrato nel punzone standard ISO, quindi facilmente reperibile nel mercato, di potenza fino a 30'000 daN., che può essere eventualmente sagomato rispetto a geometrie di tranciatura desiderate. Questa innovazione permette di aumentare in modo esponenziale la durata del prodotto e le possibilità applicative. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark).
- EN** This model represents the top of Newstark's production, range which incorporates market unique and innovative solutions. The system fits an ISO standard direct integrated punch, easily available on the market, that can eventually be shaped to match with required geometries with power up to 30'000 daN. This innovative system enables the increasing of the application possibilities and exponentially allows his life duration. Can be fitted horizontally or inclined (after comparison with Newstark's technical department).
- DE** Das Top-Modell der Newstark Stanzeinheiten mit einzigartigen und innovativen Lösungen. Die integrierte Stanzeinheit mit Gasdruckfederniederhalter. Diese bietet einen herausnehmbaren Niederhalterkopf mit bearbeitbarer Kontur und eine Stempelaufnahmemöglichkeit für ISO 8020- Schneidstempel, auch mit Formansatz bei einer Stanzkraft bis zu 30'000 daN ohne die Baulänge der Stanzeinheit unnötig zu vergrößern. Dieses System ermöglicht im Vergleich zu herkömmlichen Systemen eine bis zu drei mal höhere Abstreifkraft. Geneigte Anwendungen können in Abstimmung mit dem technischen Büro von Newstark ermöglicht werden.
- FR** Modèle représentant le haut de gamme de la production Newstark, qui intègre des solutions innovantes et uniques: système d'extraction de l'outil de la tôle au moyen d'azote intégré dans le poinçon standard ISO, donc facilement disponible sur le marché, d'une puissance allant jusqu'à 30'000 daN, qui peut éventuellement être façonné en fonction des formes de découpage souhaitées. Cette innovation permet une augmentation exponentielle de la durée de vie du produit et des possibilités d'application. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark).

It is possible put more punches in the same unit!  
Es ist möglich, setzen mehr Lochstempel in der gleichen Einheit!  
Il est possible d'insérer plusieurs poinçons dans la même unité!

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- !** **ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.  
ATTENTION:  
in order to manually perform the test, extract the cylinder as indicated.  
ACHTUNG:  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
ATTENTION:  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MAE / PRODUCT DISASSEMBLY MAE / DEMONTAGE DES PRODUKTES MAE / DÉMONTAGE PRODUIT MAE

- !** **ATTENZIONE:** cilindro a gas in pressione.  
ATTENTION: gas cylinder under pressure.  
ACHTUNG: Gasdruckfeder steht unter hohem Druck.  
ATTENTION: cylindre à gaz sous pression.

- IT** **Attenzione:** Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.
1. Togliere il cilindro "B" rimuovendo il seeger "E" come indicato.
  2. Togliere il cilindro speciale rimuovendo il seeger "A".
  3. Togliere viti "F" per controllare il punzone.
  4. Rimuovere il seeger "D" togliendo lo stripper "C".  
L'utensile "G" per rimuovere "D" è a disposizione su richiesta.
  5. Eseguire le verifiche.
  6. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  7. Assicurare il corretto riposizionamento dei singoli componenti.  
Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- EN** **Attention:** Undertake reassembly or maintenance work only when the cam unit is in its basic position.
1. Take off the cylinder "B" by removing the seeger "E" as shown.
  2. Take off the special cylinder by removing the seeger "A" as shown.
  3. Take off the screws "F" to change the punch.
  4. Take off the seeger "D" by removing stripper "C".  
The tool "G" to remove "D" is available on request.
  5. Check the components.
  6. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>).  
The use of this grease is recommended by Newstark.
  7. Ensure the correct positioning of the individual components.  
During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- DE** **Achtung:** Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.
1. Seegering "E" entfernen um den Gasdruckfeder "B" herauszuziehen.
  2. Spezielle Zylinder herausnehmen um Seegering "A" herausziehen.
  3. Schrauben "F" lösen um den Lochstempel zu wechseln.
  4. Sprengring "D" herausnehmen um den Abstreifer "C" zu entfernen.  
Ein Werkzeug "G" zur Entfernung von Teil "D" ist auf Anfrage lieferbar.
  5. Komponenten prüfen.
  6. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  7. Auf richtigen Sitz der einzelnen Komponenten achten.  
Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- FR** **Attention:** S'assurer que la came est dans sa position normale avant d'effectuer des travaux de démontage ou de maintenance.
1. Retirer le cylindres "B" en retirant le circlip "E" comme indiqué.
  2. Retirer le cylindre spécial en retirant le circlip "A".
  3. Retirer les vis "F" pour contrôler le poinçon.
  4. Enlever le circlip "D" en enlevant le stripper "C".  
L'outil "G" pour enlever "D" est disponible sur demande.
  5. Effectuer les contrôles.
  6. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  7. S'assurer que les différents éléments sont correctement repositionnés.  
Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

## CAM MASE

**IT** Modello rappresentante il top di gamma della produzione Newstark, che ingloba soluzioni innovative e uniche: sistema di estrazione dell'utensile dalla lamiera mediante azoto integrato nel punzone standard ISO, quindi facilmente reperibile nel mercato, di potenza fino a 30'000 daN., che può essere eventualmente sagomato rispetto a geometrie di tranciatura desiderate. Questa innovazione permette di aumentare in modo esponenziale la durata del prodotto e le possibilità applicative. Può essere montata in posizione orizzontale o inclinata.

**EN** This model represents the top of Newstark's production, range which incorporates market unique and innovative solutions. The system fits an ISO standard direct integrated punch, easily available on the market, that can eventually be shaped to match with required geometries with power up to 30'000 daN. This innovative system enables the increasing of the application possibilities and exponentially allows his life duration. Can be fitted horizontally or inclined.

**DE** Das Top-Modell der Newstark Stanzeinheiten mit einzigartigen und innovativen Lösungen. Die integrierte Stanzeinheit mit Gasdruckfederniederhalter. Diese bietet einen herausnehmbaren Niederhalterkopf mit bearbeitbarer Kontur und eine Stempelaufnahmemöglichkeit für ISO 8020- Schneidstempel, auch mit Formansatz bei einer Stanzkraft bis zu 30'000 daN ohne die Baulänge der Stanzeinheit unnötig zu vergrößern. Dieses System ermöglicht im Vergleich zu herkömmlichen Systemen eine bis zu drei mal höhere Abstreifkraft.

**FR** Modèle représentant le haut de gamme de la production Newstark, qui intègre des solutions innovantes et uniques: système d'extraction de l'outil de la tôle au moyen d'azote intégré dans le poinçon standard ISO, donc facilement disponible sur le marché, d'une puissance allant jusqu'à 30'000 daN, qui peut éventuellement être façonné en fonction des formes de découpage souhaitées. Cette innovation permet une augmentation exponentielle de la durée de vie du produit et des possibilités d'application. Elle peut être montée en position horizontale ou inclinée.

ESEMPI DI APPLICAZIONI SPECIALI / EXAMPLES OF SPECIAL APPLICATIONS / BEISPIELE FÜR SPEZIELLE ANWENDUNGEN  
EXEMPLE D'APPLICATIONS SPÉCIALES

- !** È possibile inserire più punzoni nella stessa unità!  
It is possible put more punches in the same unit!  
Es ist möglich, setzen mehr Lochstempel in der gleichen Einheit!  
Il est possible d'insérer plusieurs poinçons dans la même unité!

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- !** **ATTENZIONE:**  
**per eseguire la prova manualmente togliere il cilindro come indicato.**  
ATTENTION:  
in order to manually perform the test, extract the cylinder as indicated.  
ACHTUNG:  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
ATTENTION:  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MASE / PRODUCT DISASSEMBLY MASE / DEMONTAGE DES PRODUKTES MASE / DÉMONTAGE PRODUIT MASE

- !** **ATTENZIONE: cilindro a gas in pressione.**  
ATTENTION: gas cylinder under pressure.  
ACHTUNG: Gasdruckfeder steht unter hohem Druck.  
ATTENTION: cylindre à gaz sous pression.

- IT** **Attenzione: Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.**
1. Togliere il cilindro "B" rimuovendo il seeger "E" come indicato.
  2. Togliere la slitta ed il cilindro speciale rimuovendo le viti "A".
  3. Togliere viti "F" per controllare il punzone.
  4. Rimuovere il seeger "D" togliendo lo stripper "C".  
L'utensile "G" per rimuovere "D" è a disposizione su richiesta.
  5. Eseguire le verifiche.
  6. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  7. Assicurare il corretto riposizionamento dei singoli componenti.  
Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- EN** **Attention: Undertake reassembly or maintenance work only when the cam unit is in its basic position.**
1. Take off the cylinder "B" by removing the seeger "E" as shown.
  2. Take off the slider and the special cylinder by removing the screws "A" as shown.
  3. Take off the screws "F" to change the punch.
  4. Take off the seeger "D" by removing stripper "C".  
The tool "G" to remove "D" is available on request.
  5. Check the components.
  6. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>).  
The use of this grease is recommended by Newstark.
  7. Ensure the correct positioning of the individual components.  
During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- DE** **Achtung: Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.**
1. Seegering "E" entfernen um den Gasdruckfeder "B" herauszuziehen.
  2. Lagerkeil und spezielle Zylinder herausnehmen um Schrauben "A" herausziehen.
  3. Schrauben "F" lösen um den Lochstempel zu wechseln.
  4. Sprengring "D" herausnehmen um den Abstreifer "C" zu entfernen.  
Ein Werkzeug "G" zur Entfernung von Teil "D" ist auf Anfrage lieferbar.
  5. Komponenten prüfen.
  6. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  7. Auf richtigen Sitz der einzelnen Komponenten achten.  
Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- FR** **Attention: S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.**
1. Retirer le cylindres "B" en retirant le circlip "E" comme indiqué.
  2. Retirer la glissière et le cylindre spécial en retirant les vis "A".
  3. Retirer les vis "F" pour contrôler le poinçon.
  4. Enlever le circlip "D" en enlevant le stripper "C".  
L'outil "G" pour enlever "D" est disponible sur demande.
  5. Effectuer les contrôles.
  6. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  7. S'assurer que les différents éléments sont correctement repositionnés.  
Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

## CAM SMEG

- IT** Modello rappresentante il top di gamma della produzione Newstark, che ingloba soluzioni innovative e uniche: sistema di estrazione dell'utensile dalla lamiera mediante azoto integrato nel punzone standard ISO, quindi facilmente reperibile nel mercato, di potenza fino a 30'000 daN., che può essere eventualmente sagomato rispetto a geometrie di tranciatura desiderate. Questa innovazione permette di aumentare in modo esponenziale la durata del prodotto e le possibilità applicative.
- EN** This model represents the top of Newstark's production, range which incorporates market unique and innovative solutions. The system fits an ISO standard direct integrated punch, easily available on the market, that can eventually be shaped to match with required geometries with power up to 30'000 daN. This innovative system enables the increasing of the application possibilities and exponentially allows his life duration.
- DE** Das Top-Modell der Newstark Stanzeinheiten mit einzigartigen und innovativen Lösungen. Die integrierte Stanzeinheit mit Gasdruckfederniederhalter. Diese bietet einen herausnehmbaren Niederhalterkopf mit bearbeitbarer Kontur und eine Stempelaufnahmemöglichkeit für ISO 8020- Schneidstempel, auch mit Formansatz bei einer Stanzkraft bis zu 30'000 daN ohne die Baulänge der Stanzeinheit unnötig zu vergrößern. Dieses System ermöglicht im Vergleich zu herkömmlichen Systemen eine bis zu drei mal höhere Abstreifkraft.
- FR** Modèle représentant le haut de gamme de la production Newstark, qui intègre des solutions innovantes et uniques: système d'extraction de l'outil de la tôle au moyen d'azote intégré dans le poinçon standard ISO, donc facilement disponible sur le marché, d'une puissance allant jusqu'à 30'000 daN, qui peut éventuellement être façonné en fonction des formes de découpage souhaitées. Cette innovation permet une augmentation exponentielle de la durée de vie du produit et des possibilités d'application.

ESEMPI DI APPLICAZIONI SPECIALI / EXAMPLES OF SPECIAL APPLICATIONS / BEISPIELE FÜR SPEZIELLE ANWENDUNGEN  
EXEMPLE D'APPLICATIONS SPÉCIALES

- !** È possibile inserire più punzoni nella stessa unità!  
It is possible put more punches in the same unit!  
Es ist möglich, setzen mehr Lochstempel in der gleichen Einheit!  
Il est possible d'insérer plusieurs poinçons dans la même unité!

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- !** **ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.  
ATTENTION:  
in order to manually perform the test, extract the cylinder as indicated.  
ACHTUNG:  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
ATTENTION:  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO SMEG / PRODUCT DISASSEMBLY SMEG / DEMONTAGE DES PRODUKTES SMEG / DÉMONTAGE PRODUIT SMEG

- !** **ATTENZIONE:** cilindro a gas in pressione.  
ATTENTION: gas cylinder under pressure.  
ACHTUNG: Gasdruckfeder steht unter hohem Druck.  
ATTENTION: cylindre à gaz sous pression.

- IT** **Attenzione:** Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.
1. Togliere il portapunzone "C" e le molle "B" rimuovendo le viti a colletto "A".
  2. Togliere viti "D" per controllare il punzone.
  3. Rimuovere il seeger "E" togliendo lo stripper "F".  
L'utensile "G" per rimuovere "E" è a disposizione su richiesta.
  4. Eseguire le verifiche.
  5. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  6. Assicurare il corretto riposizionamento dei singoli componenti. Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- DE** **Achtung:** Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.
1. Trägerplatte "C" und Feder "B" entfernen um die Ansatzschraube "A" herauszuziehen.
  2. Schrauben "D" lösen um den Lochstempel zu wechseln.
  3. Sprengring "E" herausnehmen um den Abstreifer "F" zu entfernen.  
Ein Werkzeug "G" zur Entfernung von Teil "E" ist auf Anfrage lieferbar.
  4. Komponenten prüfen.
  5. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  6. Auf richtigen Sitz der einzelnen Komponenten achten.  
Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- EN** **Attention:** Undertake reassembly or maintenance work only when the cam unit is in its basic position.
1. Take off the punch holder "C" and the springs "B" by removing the shoulder screws "A" as shown.
  2. Take off the screws "D" to change the punch.
  3. Take off the seeger "E" by removing stripper "F".  
The tool "G" to remove "E" is available on request.
  4. Check the components.
  5. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>).  
The use of this grease is recommended by Newstark.
  6. Ensure the correct positioning of the individual components.  
During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- FR** **Attention:** S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.
1. Retirer le porte-poinçon "C" et les ressorts "B" en retirant les vis à collerette "A".
  2. Retirer les vis "D" pour contrôler le poinçon.
  3. Enlever le circlip "E" en enlevant le stripper "F".  
L'outil "G" pour enlever "E" est disponible sur demande.
  4. Effectuer les contrôles.
  5. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  6. S'assurer que les différents éléments sont correctement repositionnés.  
Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

## CAM SUPER SMEG

- IT** Camma meccanica di potenza fino a 60.000 daN con ritorno garantito mediante cilindri ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. Questa camma viene montata in posizione inclinata da 5° a 50° rispetto alla verticale. Possibili applicazioni: adatta a lavori generalmente di trancitura, foratura e piegatura.
- EN** Mechanical cam with a power of up to 60.000 daN with guaranteed return through nitrogen cylinders, on which the accessories or steels are applied to perform the desired machining operations. This cam is mounted at an angle of 5° to 50° from the vertical. Means of application: generally suitable for cutting, drilling and bending works.
- DE** Mechanische Schieber mit einer Kraft von bis zu 60.000 daN und einem durch Stickstoffzylinder garantierten Rücklauf, an dem Zubehör oder Stähle angebracht werden, um die gewünschte Bearbeitung durchzuführen. Diese Stanzeinheit wird in einer geneigten Position von 5° bis 50° in Bezug auf die Vertikale montiert. Mögliche Anwendungen: Stanzen, Biegen und Prägen.
- FR** Came mécanique avec une puissance jusqu'à 60.000 daN avec retour garanti par des cylindres d'azote, sur laquelle on applique des accessoires ou des aciers pour effectuer l'usinage souhaité. Cette came est montée dans une position inclinée de 5° à 50° par rapport à la verticale. Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS DE FORCE

# CAM SUPER SMEG

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- ⚠ ATTENZIONE:**  
per eseguire la prova manualmente togliere i cilindri come indicato.  
ATTENTION:  
in order to manually perform the test, extract the cylinder as indicated.  
ACHTUNG:  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
ATTENTION:  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO SUPER SMEG / PRODUCT DISASSEMBLY SUPER SMEG / DEMONTAGE DES PRODUKTES SUPER SMEG / DÉMONTAGE PRODUIT SUPER SMEG

- ⚠ ATTENZIONE:** cilindro a gas in pressione.  
ATTENTION: gas cylinder under pressure.  
ACHTUNG: Gasdruckfeder steht unter hohem Druck.  
ATTENTION: cylindre à gaz sous pression.

- IT** **Attenzione:** Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.
1. Togliere il "portapunzoni "B" rimuovendo le viti a colletto "A".
  2. Togliere i cilindri "D" rimuovendo le viti "C".
  3. Togliere il perno centrale "F" rimuovendo le viti "C".
  4. Eseguire le verifiche.
  5. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  6. Assicurare il corretto riposizionamento dei singoli componenti. Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- EN** **Attention:** Undertake reassembly or maintenance work only when the cam unit is in its basic position.
1. Take off the punch holder "B" by removing the shoulder screws "A".
  2. Remove cylinders "D" by removing screws "C".
  3. Remove the central pin "F" by removing the screws "C".
  4. Check the components.
  5. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
  6. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- DE** **Achtung:** Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.
1. Trägerplatte "B" entfernen um die Ansatzschraube "A" herauszuziehen.
  2. Entfernen Sie die Zylinder "D" durch Entfernen der Schrauben "C".
  3. Entfernen Sie den Mittelstift "F", indem Sie die Schrauben "C" entfernen.
  4. Komponenten prüfen.
  5. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  6. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- FR** **Attention:** S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.
1. Retirer le porte-poinçon "C" en retirant les vis à colerette "A".
  2. Retirez les cylindres "D" en enlevant les vis "C".
  3. Retirez la goupille centrale "F" en enlevant les vis "C".
  4. Effectuer les contrôles.
  5. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  6. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

**21** PATENT PENDING

## CAM M/ML

- IT** Camma meccanica contenente un punzone ricavato da uno standard ISO 8020 di potenza fino a 5'000 daN con ritorno mediante molla in acciaio. M ha corsa normale, ML ha corsa lunga. L'estrazione dalla lamiera è fatta tramite gomma PU. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark). Possibili applicazioni: adatta a lavori generalmente di trancitura e foratura.
- EN** Mechanical cam which contains a punch made from an ISO 8020 standard power supply up to 5'000 daN with steel spring return. M normal stroke, ML long stroke. The extraction from metal sheet is made by gummy-PU. Can be fitted horizontally or inclined (after comparison with Newstark's technical department). Means of application: generally suitable for cutting and drilling work.
- DE** Mechanische Stanzeinheit, die einen Schneidstempel nach ISO 8020 enthält, mit einer Kraft bis 5'000 daN mit einem Rücklauf, der durch eine Stahlfeder sichergestellt wird. Modell M hat normalen Hub, Modell ML hat einen längeren Hub. Das Blech wird durch eine PU-Feder abgestreift. Die Einheiten können (nach Abstimmung mit dem technische Büro von Newstark) horizontal oder geneigt montiert werden. Mögliche Anwendungen: Prägen und Lochen.
- FR** Came mécanique contenant un poinçon réalisé à partir d'un standard ISO 8020 d'une puissance allant jusqu'à 5'000 daN avec retour par ressort en acier. M a une course normale, ML a une course longue. L'extraction de la tôle est faite par un caoutchouc PU. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark). Applications possibles: convient pour les travaux de découpage et de perçage.

- IT**
1. Togliere porta punzone e punzone rimuovendo i seeger come indicato.
  2. Eseguire le verifiche.
  3. Rimontare con cura, lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  4. Assicurare il corretto riposizionamento dei singoli componenti.
- Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- DE**
1. Seegering und Bolzen entfernen um die Stempelhalterplatte und den Stempel herauszuziehen.
  2. Komponenten prüfen.
  3. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren. Die Verwendung dieses Fett wird durch Newstark empfohlen.
  4. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- EN**
1. Take off the punch holder and the punch by removing the seegers as shown.
  2. Check the components.
  3. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
  4. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- FR**
1. Retirer le porte-poinçon et le poinçon en retirant le circlip comme indiqué.
  2. Effectuer les contrôles.
  3. Remonter soigneusement, en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  4. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

8124.0141.0320 KIT ADATTAMENTO STARK STRIPPER / STARK-STRIP ADAPTION KIT / STARK-STRIP ADAPTIONSSATZ

Il kit comprende il punzone, la piastrina di adattamento e le viti di fissaggio.  
 Lo stark-stripper va ordinato a parte (vedi la sezione del catalogo dedicata)  
 The kit includes the punch, the adaptor plate and the fixing screws.  
 The stark-stripper must be ordered separately (see the dedicated catalog section)  
 Das Kit enthält den Stempel, die Adapterplatte und die Befestigungsschrauben.  
 Der Stark-muss separat bestellt werden (siehe den entsprechenden Abschnitt des Katalogs)

007 (09M) PUNZONE TC / HEADED PUNCH / SCHNEIDSTEMPEL ISO80820

007 (09S) PUNZONE SPECIALE PER KIT 8124 / SPECIAL PUNCH FOR KIT 8124 / SPEZIALSTEMPEL FÜR BAUSATZ 8124

MODELLO D'ORDINE / ORDER EXAMPLE / BESTELLBEISPIEL / MODÈLE DE COMMANDE

MODEL **0141.0320** INCLINATION **+10°** OPTION CODE **8001.4041.0320.620**

## CAM MA

- IT** Camma meccanica di potenza fino a 10'000 daN con ritorno garantito mediante una molla ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. È dotata di una struttura solida e compatta, al cui interno vi è un meccanismo antirotativo di posizionamento. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark). Possibili applicazioni: adatta a lavori generalmente di trancitura, foratura e piegatura.
- EN** Mechanical cam with power supply up to 10'000 daN with return by nitrogen spring, on which are applied accessories or steel, to perform required work. It has a solid and compact structure, in which there is an anti-rotation system. Can be fitted horizontally or inclined (after comparison with Newstark's technical department). Means of application: generally suitable for cutting, drilling and bending works.
- DE** Mechanische Stanzheit mit der Kraft bis 10'000 daN und einem Rücklauf, der durch eine Stickstofffeder sichergestellt wird. An die Stahlplatte kann Zubehör je nach Bedarf angebracht werden. Diese Stanzeinheit hat eine feste und kompakte Bauweise, und verfügt über ein Anti-Rotation System für den Werkzeugträger. Die Einheiten können (nach Abstimmung mit dem technische Büro von Newstark) horizontal oder geneigt montiert werden. Mögliche Anwendungen: Stanzen, Biegen und Prägen.
- FR** Came mécanique d'une puissance allant jusqu'à 10'000 daN avec retour garanti au moyen d'un ressort à azote sur lequel sont appliqués les accessoires ou les aciers pour réaliser les usinages souhaités. Elle a une structure solide et compacte, à l'intérieur de laquelle se trouve un mécanisme de positionnement anti-rotation. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark). Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS DE FORCE

- ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.
- ATTENTION:**  
in order to manually perform the test, extract the cylinder as indicated.
- ACHTUNG:**  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.
- ATTENTION:**  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MA / PRODUCT DISASSEMBLY MA / DEMONTAGE DES PRODUKTES MA / DÉMONTAGE PRODUIT MA

- ATTENZIONE:** cilindro a gas in pressione.
- ATTENTION:** gas cylinder under pressure.
- ACHTUNG:** Gasdruckfeder steht unter hohem Druck.
- ATTENTION:** cylindre à gaz sous pression.

**IT** **Attenzione:** Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.

1. Togliere il cilindro a gas rimuovendo i seeger e le viti come indicato.
2. Eseguire le verifiche.
3. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
4. Assicurare il corretto riposizionamento dei singoli componenti.

Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

**EN** **Attention:** Undertake reassembly or maintenance work only when the cam unit is in its basic position.

1. Take off the gas cylinder by removing the seegers and the screws as shown.
2. Check the components.
3. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
4. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

**DE** **Achtung:** Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.

1. Seegering und Schrauben entfernen um die Gasdruckfeder herauszuziehen.
2. Komponenten prüfen.
3. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
4. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

**FR** **Attention:** S'assurer que la came est dans sa position normale avant d'effectuer des travaux de démontage ou de maintenance.

1. Retirer le cylindre à gaz en retirant les circlips et les vis comme indiqué.
2. Effectuer les contrôles.
3. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
4. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

CAM MA

## CAM MAS

- IT** Camma meccanica, di potenza fino a 19'000 daN con un ritorno garantito mediante una molla ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. Il moto è trasferito mediante cunei inclinati ed è dotato di un sistema antirotativo. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark). Possibili applicazioni: adatta a lavori generalmente di tranciatura, foratura e piegatura.
- EN** Mechanical cam, with power supply up to 19'000 daN with return by nitrogen spring, on which are applied accessories or steel, to perform required work. The motion is transferred through wedges inclined and in which there is an anti-rotation system. Can be fitted horizontally or inclined (after comparison with Newstark's technical department). Means of application: generally suitable for shearing, drilling and bending work.
- DE** Mechanische Stanzeinheit, Kraft bis 19'000 daN mit einem Rücklauf der durch eine Stickstofffeder sichergestellt wird. An die Stahlplatte kann Zubehör je nach Bedarf angebracht werden. Bei diesem Modell, wird die Bewegung durch Keile umgesetzt. Des weiteren besitzt diese Einheit ein Anti-Rotationsystem, welches die Drehbewegung auf ein Minimum reduziert. Die Einheiten können (nach Abstimmung mit dem technischen Büro von Newstark) horizontal oder geneigt montiert werden. Mögliche Anwendungen: Stanzen, Biegen und Prägen.
- FR** Came mécanique d'une puissance allant jusqu'à 19'000 daN avec retour garanti au moyen d'un ressort à azote, sur lequel sont appliqués les accessoires ou les aciers pour réaliser les usinages souhaités. Le mouvement est transmis par des cales inclinées et est équipé d'un système anti-rotation. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark). Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS DE FORCE

- ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.
- ATTENTION:**  
in order to manually perform the test, extract the cylinder as indicated.
- ACHTUNG:**  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.
- ATTENTION:**  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MAS / PRODUCT DISASSEMBLY MAS / DEMONTAGE DES PRODUKTES MAS / DÉMONTAGE PRODUIT MAS

- ATTENZIONE:** cilindro a gas in pressione.
- ATTENTION:** gas cylinder under pressure.
- ACHTUNG:** Gasdruckfeder steht unter hohem Druck.
- ATTENTION:** cylindre à gaz sous pression.

- IT** **Attenzione:** Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.
1. Togliere il cilindro a gas rimuovendo le viti "A" come indicato.
  2. Togliere le viti "B", togliere la slitta "C", ed estrarre la molla a gas.
  3. Eseguire le verifiche.
  4. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  5. Assicurare il corretto riposizionamento dei singoli componenti. Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- DE** **Achtung:** Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.
1. Hintere Schrauben "A" entfernen um die Einheit zu öffnen.
  2. Schrauben "B" lösen, Lagerkeil "C" entfernen, Gasdruckfeder "D" herausziehen.
  3. Komponenten prüfen.
  4. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  5. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- EN** **Attention:** Undertake reassembly or maintenance work only when the cam unit is in its basic position.
1. Take off the gas cylinder by removing the screws "A" as shown.
  2. Take off the gas spring after removing the screws "B" and the slide "C".
  3. Check the components.
  4. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
  5. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- FR** **Attention:** S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.
1. Retirer le cylindres à gaz en retirant les vis "A" comme indiqué.
  2. Enlever les vis "B", retirer la glissière "C" et retirer le ressort à gaz.
  3. Effectuer les contrôles.
  4. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  5. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

CAM MAS

## CAM MASC

- IT** Camma meccanica di potenza fino a 20'000 daN con un ritorno garantito mediante due molle ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. Il moto è trasferito mediante cunei inclinati ed è dotato di un sistema antirotativo. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark). Possibili applicazioni: adatta a lavori generalmente di tranciatura, foratura e piegatura.
- EN** Mechanical cam with power supply up to 20'000 daN with return by nitrogen spring, on which are applied accessories or steel, to perform required work. The motion is transferred through wedges inclined and in which there is an anti-rotation system. Can be fitted horizontally or inclined (after comparison with Newstark's technical department). Means of application: generally suitable for shearing, drilling and bending work.
- DE** Mechanische Stanzeinheit Kraft bis 20'000 daN mit einem Rücklauf der durch Stickstoffedern sichergestellt wird. An der Schubstange kann Zubehör je nach Bedarf angebracht werden. Bei diesem Modell, wird die Bewegung durch Keile umgesetzt. Durch die Art der Schubstange wird die Rotationsbewegung so gering wie möglich gehalten. Diese Einheit ist für die Montage von oben ausgelegt. Die Einheiten können (nach Abstimmung mit technischen Büro von Newstark) horizontal oder geneigt montiert werden. Mögliche Anwendungen: Stanzen, Biegen und Prägen.
- FR** Came mécanique d'une puissance allant jusqu'à 20'000 daN avec retour garanti au moyen de deux ressorts à azote, sur lesquels sont appliqués les accessoires ou les aciers pour réaliser les usinages souhaités. Le mouvement est transmis par des cales inclinées et est équipé d'un système anti-rotation. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark). Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS OF FORCE

- ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.
- ATTENTION:**  
in order to manually perform the test, extract the cylinder as indicated.
- ACHTUNG:**  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.
- ATTENTION:**  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MASC / PRODUCT DISASSEMBLY MASC / DEMONTAGE DES PRODUKTES MASC / DÉMONTAGE PRODUIT MASC

- ATTENZIONE: cilindro a gas in pressione.**
- ATTENTION:** gas cylinder under pressure.
- ACHTUNG:** Gasdruckfeder steht unter hohem Druck.
- ATTENTION:** cylindre à gaz sous pression.

- IT** **Attenzione: Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.**
1. Togliere i cilindri a gas rimuovendo le viti "A" come indicato.
  2. Togliere la piastra di testa rimuovendo le viti "B" come indicato.
  3. Togliere la piastra posteriore rimuovendo le viti "C" come indicato in modo da togliere il cuneo.
  4. Togliere i blocchetti reggimolla rimuovendo le viti "D" come indicato in modo da togliere la slitta.
  5. Eseguire le verifiche.
  6. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  7. Assicurare il corretto riposizionamento dei singoli componenti. Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- EN** **Attention: Undertake reassembly or maintenance work only when the cam unit is in its basic position.**
1. Take off the gas cylinder by removing the screws "A" as shown.
  2. Take off the cover by removing the screws "B" as shown.
  3. Take off the rear flange by removing the screws "C" as shown in order to remove the wedge.
  4. Take off the springs holder block removing the screws "D" as shown in order to remove the slider.
  5. Check the components.
  6. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
  7. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- DE** **Achtung: Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.**
1. Schrauben "A" entfernen um die Gasdruckfedern herauszuziehen.
  2. Schrauben "B" entfernen um die Kopfplatte herunter zu nehmen.
  3. Schrauben "C" entfernen um die Heckplatte herausziehen.
  4. Schrauben "D" entfernen um die Federlagerblöcke zu lösen.
  5. Komponenten prüfen.
  6. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  7. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) nachschmieren.

- FR** **Attention: S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.**
1. Retirer les cylindres à gaz en retirant les vis "A" comme indiqué.
  2. Retirer la plaque de tête en retirant les vis "B" comme indiqué.
  3. Retirer la plaque arrière en retirant les vis "C" comme indiqué afin d'enlever la cale.
  4. Retirer les blocs de support des ressorts en retirant les vis "D" comme indiqué afin d'enlever la glissière.
  5. Effectuer les contrôles.
  6. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  7. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

# CAM MASC

## CAM MASC COMPACT

- IT** Camma meccanica di potenza fino a 20'000 daN con un ritorno garantito mediante due molle ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. Il moto è trasferito mediante cunei inclinati ed è dotato di un sistema antirotativo. Può essere montata in posizione orizzontale o inclinata (previo confronto con l'ufficio tecnico Newstark). Possibili applicazioni: adatta a lavori generalmente di tranciatura, foratura e piegatura.
- EN** Mechanical cam with power supply up to 20'000 daN with return by nitrogen spring, on which are applied accessories or steel, to perform required work. The motion is transferred through wedges inclined and in which there is an anti-rotation system. Can be fitted horizontally or inclined (after comparison with Newstark's technical department). Means of application: generally suitable for shearing, drilling and bending work.
- DE** Mechanische Stanzeinheit Kraft bis 20'000 daN mit einem Rücklauf der durch Stickstoffedern sichergestellt wird. An der Schubstange kann Zubehör je nach Bedarf angebracht werden. Bei diesem Modell, wird die Bewegung durch Keile umgesetzt. Durch die Art der Schubstange wird die Rotationsbewegung so gering wie möglich gehalten. Diese Einheit ist für die Montage von oben ausgelegt. Die Einheiten können (nach Abstimmung mit technischen Büro von Newstark) horizontal oder geneigt montiert werden. Mögliche Anwendungen: Stanzen, Biegen und Prägen.
- FR** Came mécanique d'une puissance allant jusqu'à 20'000 daN avec retour garanti au moyen de deux ressorts à azote, sur lesquels sont appliqués les accessoires ou les aciers pour réaliser les usinages souhaités. Le mouvement est transmis par des cales inclinées et est équipé d'un système anti-rotation. Elle peut être montée en position horizontale ou inclinée (après discussion avec le bureau technique Newstark). Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS DE FORCE

# CAM MASC COMPACT

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.  
**ATTENTION:**  
in order to manually perform the test, extract the cylinder as indicated.  
**ACHTUNG:**  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
**ATTENTION:**  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO MASC COMPACT / PRODUCT DISASSEMBLY MASC COMPACT / DEMONTAGE DES PRODUKTES MASC COMPACT  
DÉMONTAGE PRODUIT MASC COMPACT

- ATTENZIONE:** cilindro a gas in pressione.  
**ATTENTION:** gas cylinder under pressure.  
**ACHTUNG:** Gasdruckfeder steht unter hohem Druck.  
**ATTENTION:** cylindre à gaz sous pression.

- IT** **Attenzione: Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.**
1. Togliere i cilindri a gas rimuovendo le viti "A" come indicato.
  2. Togliere la piastra di testa rimuovendo le viti "B" come indicato.
  3. Togliere la piastra posteriore rimuovendo le viti "C" come indicato in modo da togliere il cuneo.
  4. Togliere i blocchetti reggimolla rimuovendo le viti "D" come indicato in modo da togliere la slitta.
  5. Eseguire le verifiche.
  6. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>). L'uso di questo grasso viene consigliato da Newstark.
  7. Assicurare il corretto riposizionamento dei singoli componenti. Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS<sub>2</sub>).

- EN** **Attention: Undertake reassembly or maintenance work only when the cam unit is in its basic position.**
1. Take off the gas cylinder by removing the screws "A" as shown.
  2. Take off the cover by removing the screws "B" as shown.
  3. Take off the rear flange by removing the screws "C" as shown in order to remove the wedge.
  4. Take off the springs holder block removing the screws "D" as shown in order to remove the slider.
  5. Check the components.
  6. Reassemble carefully using grease with disulfide molybdeno (MoS<sub>2</sub>). The use of this grease is recommended by Newstark.
  7. Ensure the correct positioning of the individual components. During use lubricate with grease with disulfide molybdeno (MoS<sub>2</sub>).

- DE** **Achtung: Wartungs- und Demontearbeiten nur in Grundstellung der Stanzeinheit vornehmen.**
1. Schrauben "A" entfernen um die Gasdruckfedern herauszuziehen.
  2. Schrauben "B" entfernen um die Kopfplatte herunter zu nehmen.
  3. Schrauben "C" entfernen um die Heckplatte herausziehen.
  4. Schrauben "D" entfernen um die Federlagerblöcke zu lösen.
  5. Komponenten prüfen.
  6. Montage in umgekehrter Reihenfolge unter Verwendung von Molybdändisulfidfett (MoS<sub>2</sub>). Die Verwendung dieses Fett wird durch Newstark empfohlen.
  7. Auf richtigen Sitz der einzelnen Komponenten achten. Während des Gebrauches, mit Molybdändisulfidfett (MoS<sub>2</sub>) Stellen nachschmieren.

- FR** **Attention: S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.**
1. Retirer les cylindres à gaz en retirant les vis "A" comme indiqué.
  2. Retirer la plaque de tête en retirant les vis "B" comme indiqué.
  3. Retirer la plaque arrière en retirant les vis "C" comme indiqué afin d'enlever la cale.
  4. Retirer les blocs de support des ressorts en retirant les vis "D" comme indiqué afin d'enlever la glissière.
  5. Effectuer les contrôles.
  6. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>). Newstark recommande l'utilisation de cette graisse.
  7. S'assurer que les différents éléments sont correctement repositionnés. Lubrifier avec de la graisse au bisulfure de molybdène (MoS<sub>2</sub>).

# CAM MASC COMPACT

## CAM ROLLER

- IT** Cam meccanica di potenza fino a 25'800 daN con ritorno garantito mediante un cilindro ad azoto, su cui vengono applicati gli accessori o gli acciai per eseguire le lavorazioni desiderate. Questa cam ha una corsa molto lunga e può essere montata in posizione orizzontale o inclinata. Possibili applicazioni: adatta a lavori generalmente di tranciatura, foratura e piegatura.
- EN** Mechanical cam with power supply up to 25'800 daN with return by a nitrogen cylinder, on which are applied accessories or steel, to perform required work. This cam has a long stroke and can be fitted horizontally or inclined. Means of application: generally suitable for shearing, drilling and bending work.
- DE** Mechanische Stanzeinheit mit einer Kraft bis 25'800 daN und einem Rücklauf, der durch eine Stickstofffeder sichergestellt wird. An der Stanzeinheit können Zubehör oder verschiedene Sorten Stahl je nach Bedarf angebracht werden. Diese Cam hat einen sehr langen Hub und kann horizontal oder geneigt montiert werden. Mögliche Anwendungen: Stanzen, Lochen und Biegen.
- FR** Came mécanique d'une puissance allant jusqu'à 25'800 daN avec retour garanti au moyen d'un vérin à azote, sur lequel sont appliqués les accessoires ou les aciers pour réaliser les usinages souhaités. Cette came a une très longue course et peut être montée en position horizontale ou inclinée. Applications possibles: convient pour les travaux de découpage, de perçage et de pliage.

### PUNTI DI FORZA / STRENGTHS / STÄRKEN / POINTS DE FORCE

## CAM ROLLER

ESEMPI DI APPLICAZIONI SPECIALI / EXAMPLES OF SPECIAL APPLICATIONS / BEISPIELE FÜR SPEZIELLE ANWENDUNGEN  
EXEMPLE D'APPLICATIONS SPÉCIALES

- ⚠ Forature sulla slitta a richiesta.**  
Su richiesta è possibile montare un'unità di punzonatura speciale.  
Upon request drillings are available in the slide.  
Upon request, it is possible to assemble a special punching unit.  
Auf Anfrage sind Bohrungen möglich.  
Auf Anfrage ist die Montage einer Stanzeinheit möglich.  
Perçage sur la glissière sur demande  
Une unité de poinçonnage spéciale peut être installée sur demande.

DISEGNO DEL MONTAGGIO / MOUNTING DESIGN / MONTAGEZEICHNUNG / DESSIN DU MONTAGE

- ⚠ ATTENZIONE:**  
per eseguire la prova manualmente togliere il cilindro come indicato.  
ATTENTION:  
in order to manually perform the test, extract the cylinder as indicated.  
ACHTUNG:  
Stickstoffzylinder verbaut, Schieber nur in Grundstellung öffnen.  
ATTENTION:  
pour effectuer le test, retirer manuellement le cylindre comme indiqué.

SMONTAGGIO PRODOTTO ROLLER / PRODUCT DISASSEMBLY ROLLER / DEMONTAGE DES PRODUKTES ROLLER / DÉMONTAGE PRODUIT ROLLER

- ⚠ ATTENZIONE: cilindro a gas in pressione.**  
ATTENTION: gas cylinder under pressure.  
ACHTUNG: Gasdruckfeder steht unter hohem Druck.  
ATTENTION: cylindre à gaz sous pression.

**IT** **Attenzione: Assicurarsi che la camma sia nella sua posizione normale prima di eseguire qualsiasi lavoro di smontaggio o manutenzione.**

1. Togliere le piastrine "A" rimuovendo le viti "B".
2. Sfilare la slitta "C".
3. Togliere il cilindro a gas "D" rimuovendo la vite "E".
4. Togliere le sfatte "F" rimuovendo le viti "G".
5. Sfilare il perno "H" per togliere la rotella "I".
6. Eseguire le verifiche.
7. Rimontare con cura lubrificando con grasso bisolfuro di Molibdeno (MoS2). L'uso di questo grasso viene consigliato da Newstark .  
Lubrificare durante l'uso con grasso bisolfuro di Molibdeno (MoS2).

**DE** **Achtung: Stellen Sie bei Montagearbeiten sicher, daß sich die CAM UNIT in der Basisposition befindet.**

1. Entfernen Sie die Platten „A“ durch entfernen der Schrauben „B“ wie gezeigt.
2. Entfernen Sie den Gleiter „C“.
3. Entfernen Sie den Stickstoffzylinder durch entfernen der Schraube „E“.
4. Entfernen Sie die Halter „F“ durch entfernen der Schrauben „G“.
5. Entfernen Sie den Stift „H“, um den ROLLER „I“ zu entnehmen.
6. Überprüfen Sie die Komponenten.
7. Bauen Sie alle Komponenten unter Verwendung von MoS2-Fett wieder zusammen. Die Verwendung von MoS2-Fett wird von Newstark empfohlen.  
Während der Nutzung fetten Sie mit MoS2-Fett.

**EN** **Attention: Undertake reassembly or maintenance work only when the cam unit is in its basic position.**

1. Take off the plates "A" by removing the screws "B" as shown.
2. Take off the slide "C".
3. Take off the nitrogen cylinder by removing the screw "E".
4. Take off the brackets "F" by removing the screws "G".
5. Take off the pin "H" to remove roller "I".
6. Check the components.
7. Reassemble carefully using grease with disulfide molybdeno (MoS2). The use of this grease is recommended by Newstark.  
During use lubricate with grease with disulfide molybdeno (MoS2).

**FR** **Attention: S'assurer d'abord que la came est dans sa position normale avant d'effectuer tout travail de démontage ou de maintenance.**

1. Enlever les plaques "A" en retirant les vis "B".
2. Enlever la glissière "C".
3. Retirer le cylindre à gaz "D" en enlevant la vis "E".
4. Enlever les étriers "F" en retirant les vis "G".
5. Retirer la goupille "H" pour enlever la roue "I".
6. Effectuer les contrôles.
7. Remonter soigneusement en lubrifiant avec de la graisse au bisulfure de molybdène (MoS2). Newstark recommande l'utilisation de cette graisse.  
Lubrifier avec de la graisse au bisulfure de molybdène (MoS2).

## PORTAPUNZONI E INSERTI

PUNCH HOLDERS AND INSERTS / STEMPELHALTER UND EINSÄTZE / PORTE-POINÇONS ET INSERTS

- IT** Portapunzoni adatti per punzoni ISO8020, Ballock Heavy duty o a collo di trombone, che permettono di guidare i punzoni e velocizzarne l'inserimento nello stampo. Esistono due versioni standard, quadrati e triangolari; una escludibile che permette di includere od escludere in opera i punzoni di uno stampo per mezzo di un cilindro pneumatico che ritrae il punzone quando il foro non è richiesto, ed una regolabile che consente la registrazione della posizione sotto pressa di tranciatrici e forature mediante l'ausilio di spessori rimovibili. Gli inserti di fissaggio sono invece sistemi che garantiscono la stabilità del punzone quando non c'è sufficiente spazio per poter utilizzare un portapunzone standard.
- EN** Punch holders suitable for ISO8020, Ballock Heavy duty or bottle neck punches, that allow to guide the punches and speed up their assembly into the die. There are two standard versions, square and triangular; a retractable one that allows to include or exclude the punches of a die thanks to a pneumatic cylinder that retracts the punch when the hole is not required, and an adjustable version that allows the setting of the punching and drilling position under press by removable shims. The fixing inserts are systems that guarantee the stability of the punch when there is not enough space to use a standard punch holder.
- DE** Stempelhalter geeignet für Stempel ISO8020, Ballock Heavy duty oder mit Posaunenhals. Die Stempelhalter ermöglichen, die Stempel zu führen und das Einsetzen in das Werkzeug zu beschleunigen. Es sind zwei Standard Modelle vorhanden, viereckige und dreieckige; ein rückziehbares, welches das Zu- oder Abschalten der Stempel eines Werkzeuges während die Arbeit ermöglicht, dank einem pneumatischen Zylinders, der den Stempel zurückzieht, wenn ein Loch nicht erforderlich ist. Und ein verstellbares, das die Justierung der Position beim Stanzen und Lochen unter Druck durch aufsteckbare Distanzring ermöglicht. Die Befestigungseinsätze sind Systeme die die Stabilität des Stempels garantieren wenn nicht genug Platz vorhanden ist, um einen Standard Stempelhalter einzusetzen.
- FR** Porte-poinçons adaptés aux poinçons ISO8020, Ballock Heavy duty ou à col de cygne, qui permettent de guider les poinçons et d'accélérer leur insertion dans l'outil de découpe. Il existe deux versions standard, carrée et triangulaire; une version pouvant être exclue qui permet d'inclure ou d'exclure pendant l'usinage les poinçons d'un outil de découpe au moyen d'un vérin pneumatique qui rétracte le poinçon lorsque le trou n'est pas nécessaire, et une version réglable qui permet de régler la position sous presse de découpage et de perçage des poinçons et des trous à l'aide de cales amovibles. Les inserts de fixation sont plutôt des systèmes qui garantissent la stabilité du poinçon lorsqu'il n'y a pas assez de place pour utiliser un porte-poinçon standard.

# UNITÀ DI PUNZONATURA AD AZOTO

NITROGEN PUNCHING UNITS / STICKSTOFF-STANZEINHEIT  
UNITÉ DE POINÇONNAGE À L'AZOTE

# UNITÀ DI PUNZONATURA AD AZOTO

NITROGEN PUNCHING UNITS / STICKSTOFF-STANZEINHEIT  
UNITÉ DE POINÇONNAGE À L'AZOTE

- IT** Unità di punzonatura ad azoto per punzoni ISO8020 con potenza di estrazione fino a 4'000 daN.
- EN** Nitrogen punching unit for ISO8020 punches with extraction force up to 4'000 daN.
- DE** Stickstoff-Stanzeinheit für ISO8020-Stempel mit Rückzugskraft bis zu 4'000 daN.
- FR** Unité de poinçonnage à l'azote pour les poinçons ISO8020 avec une puissance d'extraction allant jusqu'à 4'000 daN.

## 8061.01 - MASCHERA PER LAVORAZIONE DEL PREMILAMIERA

JIG FOR MACHINING THE BLANKHOLDER / BAUTEIL FÜR BLECHHALTERBEARBEITUNG / GABARIT POUR USINAGE DU SERRE-FLAN

### SMONTAGGIO / DISASSEMBLY / DEMONTAGE / DÉMONTAGE

#### ATTENZIONE

- Per sagomare la testina:
- rimuoverla dall'unità;
  - inserirla nel dispositivo;
  - avvitare la ghiera di bloccaggio;
  - posizionare il dispositivo su macchina utensile, elettroerosione o stampo per eseguire la sagoma richiesta;
  - rimontare la testina.

#### ATTENTION

- Pour façonner la tête:
- l'enlever de l'unité;
  - l'insérer dans le dispositif;
  - visser la bague de verrouillage;
  - placer l'appareil sur une machine outil, électroérosion ou outil de découpe pour exécuter le modèle requis;
  - remonter la tête.

#### ATTENTION

- In order to shape the head:
- remove it from the unit;
  - insert the head into the special device;
  - tighten the locking ring nut;
  - place the device on the machine stain, EDM or tool plate to perform the required shape;
  - put back together the head with the body.

#### ACHTUNG

- Zum Profilieren bitte folgenden Schritten folgen:
- den Kopf von der Einheit entfernen;
  - den Kopf in die Vorrichtung einsetzen;
  - den Verriegelungsring festschrauben;
  - die Vorrichtung in die Werkzeugmaschine einbauen, Elektroerosion oder Werkzeug zum Profilieren;
  - den Kopf einbauen.

# UNITÀ DI PUNZONATURA AD AZOTO

NITROGEN PUNCHING UNITS / STICKSTOFF-STANZEINHEIT  
UNITÉ DE POINÇONNAGE À L'AZOTE

# STARK STRIPPERS

STARK STRIPPERS / STARK STRIPPERS / STARK STRIPPERS

## STARK STRIPPERS

STARK STRIPPERS / STARK STRIPPERS / STARK STRIPPERS

- IT** Dispositivi applicabili alla maggior parte dei porta punzoni in commercio, con testa cilindrica o Ballock (Light-Heavy Duty), che permettono di estrarre il punzone dalla lamiera garantendo forza e sicurezza con ingombri minimi. Questi estrattori, grazie all'alta qualità della gomma in poliuretano EFFEBE, aumentano la durata di vita del punzone in quanto supportano la punta del punzone e ne assorbono le vibrazioni in fase di foratura, permettendo inoltre di ridurre i tempi di attrezzaggio e manutenzione. Le testine in BRAL, che variano in base alla lunghezza del punzone, sono facilmente intercambiabili, sagomabili e dotate di un sistema di antirotazione.
- EN** Stark strippers are designed to be mount directly to most industry standard retainers, for both Ballock (Light-Heavy Duty) and headed punches, which allow the extraction of the punch from the metal sheet, providing strength and security with minimum dimensions. These strippers, thanks to the high quality of the polyurethane EFFEBE rubber, not only increase the punch life supporting its tip and dampening the vibrations during drilling stage, but also allow to reduce the setup time and maintenance. The inserts made in BRAL, which vary according to the length of the punch, are easily interchangeable, machinable and equipped with an anti-rotation system.
- DE** Dieser Abstreifer lässt sich bei den meisten herkömmlichen Lochstempeln mit zylindrischem Kopf bzw. mit dem Ballock System (Light-Heavy Duty) anwenden. Bei kleinem Platzbedarf wird der Lochstempel somit kraftvoll und sicher vom Blech abgestreift. Dank der hohen Qualität der EFFEBE-Feder aus Polyurethan werden die Schäfte der Lochstempel besser gestützt, die Schwingungen gedämpft und somit die Lebensdauer des Lochstempels verlängert. Ferner werden die Nachrüst- und Wartungszeiten ebenfalls verkürzt. Die BRAL-Köpfe unterscheiden sich je nach Lochstempel. Diese können ausgetauscht und profiliert werden und sind mit einem Anti-Rotationsystem versehen.
- FR** Dispositifs applicables à la plupart des porte-poinçons présent sur le marché, à tête cylindrique ou Ballock (Light-Heavy Duty), qui permettent d'extraire le poinçon de la tôle en garantissant la résistance et la sécurité avec des dimensions d'encombrement minimales. Ces extracteurs, grâce à la haute qualité du caoutchouc polyuréthane EFFEBE, augmentent la durée de vie du poinçon car ils soutiennent la pointe du poinçon et absorbent les vibrations pendant le forage, ce qui permet également de réduire les temps d'outillage et de maintenance. Les têtes en BRAL, qui varient en fonction de la longueur du poinçon, sont facilement interchangeables, profilées et équipées d'un système anti-rotation.

Per le lavorazioni della testina premilamiera vedere la pagina dedicata "8058 - PREMILAMIERA"

For the machining of the blank holder, see the dedicated page "8058 - BLANK HOLDER" / Für die Vorfräsbearbeitung siehe die spezielle Seite "8058 - BLECHPRESSPLATTE".

ESEMPIO DI ORDINE: / ORDER EXAMPLE: / BESTELLBEISPIEL:

Punzone Ø13 lunghezza 90: Stark stripper 1101.0013 + 8058.1320.002 (se necessarie specificare le lavorazioni come descritto alla pagina dedicata "8058 - PREMILAMIERA")

Punch Ø13 length 90: Stark stripper 1101.0013 + 8058.1320.002 (if necessary, specify the machining as described on the dedicated page "8058 - BLANK HOLDER")

Stempel Ø13 Länge 90: Stark Abstreifer 1101.0013 + 8058.1320.002 (ggf. Bearbeitung angeben, wie auf der entsprechenden Seite "8058 - BLECHPRESSPLATTE" beschrieben)

8058..... : Testina premilamiera sbozzata / Blank head / Rohling blechhalterkopf (vedi codici nelle pagine precedenti / see codes on previous pages / siehe Codes auf den vorherigen Seiten)

00T : Testina premilamiera con foratura tonda / Blank holder head with round hole / Rohlingshalterkopf mit rundem Loch (shape X)

00S : Testina premilamiera con foratura sagomata / Blank holder head with shaped hole / Rohlingshalterkopf mit geformtem Loch (shape O-R-H-K-L-J-N-Z-V-Y or special shape)

00T3D : Testina premilamiera con foratura tonda (shape X) e lavorazione 3D / Blank holder head with round drilling (shape X) and 3D machining / Rohlingshalterkopf mit Rundbohrung und 3D-Bearbeitung

00S3D : Testina premilamiera con foratura sagomata (shape O-R-H-K-L-J-N-Z-V-Y or special shape) e lavorazione 3D / Blank holder head with shaped hole and 3D machining / Rohlingshalterkopf mit geformtem Loch und 3D-Bearbeitung

In fase di ordine specificare le misure P/W/R della lavorazione sul premilamiera, non del punzone.  
When ordering, specify the P/W/R measurements of the machining on the blank holder, not of the punch.  
Geben Sie bei der Bestellung die P/W/R-Maße des Werkstücks am Niederhalter an, nicht die des Stempels.

In caso di sagome speciali e lavorazioni 3D è necessario un file del cliente per eseguire le lavorazioni.  
In the case of special shapes and 3D machining, a customer file is required to perform the machining.  
Bei Sonderformen und 3D-Bearbeitungen ist eine Kundendatei erforderlich, um die Bearbeitung durchzuführen.

Specificare l'angolo per la lavorazione  
Specify the angle for machining  
Winkel für die Bearbeitung angeben

**ESEMPIO DI ORDINE / ORDER EXAMPLE / BESTELLBEISPIEL:**

1. Punzone ISO 8020 Ø25 lunghezza 80 con premilamiera sbozzato standard / Punch ISO 8020 Ø25 length 80 with standard blank holder  
Stanzen Sie ISO 8020 Ø25 Länge 80 mit Standard-Blechhalter: 1101.0025 + 8058.2520.002
2. Punzone ISO 8020 Ø25 lunghezza 80 con premilamiera sbozzato lungo / Punch ISO 8020 Ø25 length 80 with long blank holder  
Stanzen Sie ISO 8020 Ø25 Länge 80 mit langem Niederhalter: 1101.0025 + 8058.2530.001
3. Punzone ISO 8020 Ø25 lunghezza 80 con premilamiera sagoma "O" standard / Punch ISO 8020 Ø25 length 80 with standard "O" shape blank holder  
Stanzen Sie ISO 8020 Ø25, Länge 80, mit Standard-Blechhalter in „O“-Form: 1101.0025 + 8058.250.002 (00S shape "O" P=22 W=15 X2)

# 8061.00\_\_\_ - MASCHERA PER LAVORAZIONE DELLA TESTINA

JIG FOR MACHINING THE STRIPPER HEAD / BAUTEIL FÜR KOPFBEARBEITUNG / GABARIT POUR USINAGE DE LA TÊTE

## SMONTAGGIO / DISASSEMBLY / DEMONTAGE / DÉMONTAGE

### ATTENZIONE

- Per sagomare la testina:
- rimuoverla dallo stripper;
  - inserirla nel dispositivo;
  - avvitare la ghiera di bloccaggio;
  - posizionare il dispositivo su macchina utensile, elettroerosione o stampo per eseguire la sagoma richiesta;
  - rimontare la testina.

### ATTENTION

- Pour façonner la tête:
- l'enlever du stripper;
  - l'insérer dans le dispositif;
  - visser la bague de verrouillage;
  - positionner le dispositif sur la machine-outil; l'électroérosion ou l'outil de découpe pour réaliser le gabarit demandé;
  - remonter la tête.

### ATTENTION

- In order to shape the head:
- remove it from the stripper;
  - insert the head into the special device;
  - tighten the locking ring nut;
  - place the device on the machine staim, EDM or tool plate to perform the required shape;
  - put back together the head with the body.

### ACHTUNG

- Zum Profilieren bitte folgenden Schritten folgen:
- den Kopf vom Stripper entfernen;
  - den Kopf in die Vorrichtung einsetzen;
  - den Verriegelungsring festschrauben;
  - die Vorrichtung in die Werkzeugmaschine einbauen, Elektroerosion oder Werkzeug zum Profilieren;
  - den Kopf einbauen.

# ROLL

UNITÀ DI PIEGA / BENDING UNITS / ROLLBIEGER  
UNITÉ DE PLIAGE

## ROLL

UNITÀ DI PIEGA / BENDING UNITS / ROLLBIEGER / UNITÉ DE PLIAGE

- IT** Accessorio che permette di eseguire la piegatura e calibratura in contemporanea della lamiera o acciaio. Permette inoltre di eseguire svariati tipi di piegature quali piega in sottosquadra (con angolazioni inferiori ai 90°), aperta (superiori ai 90°), ad ampio raggio mantenendo la tolleranza richiesta nell'angolazione. Esegue inoltre pieghe a "Z" aperte, doppia piega, ecc. Il sistema è composto da un rotante precedentemente sagomato a seconda delle applicazioni desiderate. Il prodotto è costruito con materiali molto tenaci e resistenti all'usura e compressione, temprati e trattati in superficie in modo tale da diminuire considerevolmente gli attriti. La tolleranza generale di piegatura è di  $\pm 0,5^\circ$ . Il prodotto è brevettato.
- EN** Device that allows simultaneous calibration and bending of metal sheet or steel. It also allows the execution of many different types of folds, such as undersquare folds (with an angulation less than 90 °), open folds (greater than 90 °), large radius, maintaining requested tolerance angulation. Also performs "Z" open folds, doublefold etc. The system consists of a rotating previously shaped according to required applications. The product is built with very strong materials, wear and compression resistant, hardened and surface treated in order to considerably reduce friction. The general tolerance of bending is  $\pm 0,5^\circ$ . The product is patented.
- DE** Rollbieger, der gleichzeitig die Biegung und die Verformung von Blechen erlaubt. Er ermöglicht außerdem auch andere Biegeformen wie das Überbiegen (mit Winkeln unter 90°), geöffnetes Biegen (über 90°), mit weitem Radius, innerhalb der angeforderten Toleranz. Er ermöglicht auch geöffnetes "Z" Biegen und "U" Biegen möglich. Das System besteht aus einem vorher definierten Drehteil. Der Rollbieger wird oberflächenbehandelt, was die Reibung sehr stark vermindert. Die allgemeine Biegetoleranz beträgt  $\pm 0,5^\circ$ . Das Produkt ist patentiert.
- FR** Accessoire qui permet le pliage et le calibrage simultanés de la tôle ou de l'acier. Il permet également de réaliser différents types de pliage tels que des contre-dépouilles (avec des angles inférieurs à 90°), des pliages ouverts (supérieurs à 90°), des pliages à grand rayon tout en conservant la tolérance requise dans l'angle. Il effectue également des pliages en "Z" ouverts, des doubles pliages, etc. Le système est constitué d'une roue rotative préalablement façonnée en fonction des applications souhaitées. Le produit est fabriqué à partir de matériaux très résistants à l'usure et à la compression, trempés et traités en surface de manière à réduire considérablement les frottements. La tolérance générale de pliage est de  $\pm 0,5^\circ$ . Le produit est breveté.

# PRESTAM PRESTAUTO SPECIAL UNITS

UNITÀ DI FORATURA E SAGOMATURA / THREAD FORMING UNITS  
GEWINDEPRAEGESTEMPEL / UNITÉ DE PERÇAGE ET FAÇONNAGE

# PRESTAM PRESTAUTO SPECIAL UNITS

UNITÀ DI FORATURA E SAGOMATURA / THREAD FORMING UNITS  
GEWINDEPRAEGESTEMPEL / UNITÉ DE PERÇAGE ET FAÇONNAGE

- IT** Sono unità di tranciatura e sagomatura della lamiera che permettono di realizzare la "spirale" o "chiocciola" nella lamiera stessa, tale da far avvitare viti autofilettanti evitando l'utilizzo del normale collarino realizzato mediante "punta chiodo", poco affidabile. La sagomatura speciale ottenuta tramite queste unità permette di aumentare la tenuta del filetto della vite. È possibile inoltre realizzare modelli speciali, costruiti su misura.
- EN** These units are used for shear and shape the metal sheet in order to realize the "twist" or "spiral" in the metal sheet itself, such that to tighten self-threading screws avoiding the use of standard collar made by "tip" end, which is unreliable. The special shape obtained by these units allows to enhance the tightness of the thread of the thread. It is also possible to manufacture special models, tailored according to the customer's drawings.
- DE** Die Einheiten lochen und prägen das Blech, wodurch eine "Spirale" oder ein "Verdrehung" ins Blech gebracht wird. Dadurch kann man selbstschneidende Schrauben verwenden, ohne den mit einem Stempel gemachten, üblichen und wenig zuverlässigen Bundring zu verwenden. Die durch die Gewindeprägestempel erhaltene Sonderform erlaubt, die Dichte im Bereich des geprägten Gewindes zu steigern. Es ist auch möglich, spezielle Modelle nach Maß herzustellen.
- FR** Il s'agit d'unités de découpage et de façonnage de la tôle qui permettent de faire la "spirale" ou la "vis sans fin" dans la tôle elle-même, de sorte que des vis autotaraudeuses peuvent être vissées en évitant l'utilisation du collier normal réalisé avec la "pointe du clou", qui n'est pas très fiable. La forme spéciale obtenue grâce à ces unités permet d'augmenter la tenue du filetage de la vis. Il est également possible de réaliser des modèles spéciaux, sur mesure.

## PILOTI

PILOT UNITS / PILOT EINHEITSPECIAL / PILOTES

- IT** Perno preciso dotato di estrattore che permette di centrare la lamiera attraverso fori precedentemente eseguiti.
- EN** Precise pin equipped with ejector that allows to balance the metal sheet by previously performed holes.
- DE** Präziser Stift, ausgerüstet mit einem Abstreifer, der zur Zentrierung des Bleches durch vorher ausgeführte Löcher dient.
- FR** Pivot précis équipé d'un extracteur qui permet de centrer la tôle à travers des trous préalablement percés.

LIFTERS / HUBEINRICHTUNGEN / ÉLÉVATEURS

- IT** Meccanismi che permettono di guidare la lamiera durante lo stampaggio, garantendo anche la velocizzazione dell'avanzamento del nastro grazie ad un sistema di sollevamento.
- EN** Mechanisms that allow to guide the metal sheet during the stamping process, guaranteeing the increment of the band feeding speed thanks to a lifting system.
- DE** Mechanismen, welche die Führung des Bleches während des Formverfahren ermöglichen und eine höhere Bandgeschwindigkeit durch ein Hubsystem garantieren.
- FR** Mécanismes qui permettent de guider la tôle pendant l'emboutissage, en garantissant également une avance rapide du feuillard grâce à un système de levage.

# SUPPORTI PER STAMPI

SUPPORTS FOR DIES / WERKZEUGE ENTLASTUNG  
SUPPORTS POUR OUTILS DE DÉCOUPE

## SUPPORTI PER STAMPI

SUPPORTS FOR DIES / WERKZEUGE ENTLASTUNG / SUPPORTS POUR OUTILS DE DÉCOUPE

- IT** Pensati e costruiti per lo stoccaggio ed il trasporto dello stampo. Questo tipo di prodotto serve a distanziare le parti. In questo modo le molle ed i cilindri non vengono sovra-caricati. È indispensabile per la protezione degli stampi, in quanto vi è un perfetto centraggio tra bussola e colonna. Ogni supporto ha una portata proporzionata al peso dello stampo. Anche “visivamente” cattura l’attenzione dell’osservatore.
- EN** Designed and built for the storage and transport of the die. This type of product is necessary to distance the parts. In this way the springs and the cylinders are not over-loaded. It is essential for the protection of the dies, as there is a perfect centring between bushing and column. Every “SSD” has a proportionate carrying capacity to the weight of the die. Also “visually” captures the viewer’s attention.
- DE** Dieses Produkt ist für die Lagerung und den Transport von Werkzeugen konzipiert. Es eignet sich um Werkzeuge zu distanzieren. Auf diese Weise werden Schnitte, Formen und Gasdruckfedern geschont. Es ist wichtig für den Schutz des Werkzeuges, da es eine perfekte Zentrierung zwischen Buchse und Säule. Jeder “SSD” hat eine Tragfähigkeit proportional zum Gewicht des Werkzeuges. Auch “visuell” fängt die Aufmerksamkeit des Betrachters.
- FR** Conçus et fabriqués pour le stockage et le transport d’outil de découpe. Ce type de produit est utilisé pour éloigner les pièces. De cette façon, les ressorts et les vérins ne sont pas surchargés. Il est indispensable pour la protection des outils de découpe, car il permet un centrage parfait entre le manchon et la colonne. Chaque support a une capacité de charge proportionnelle au poids de l’outil de découpe. Même “visuellement” il capture l’attention de l’observateur.

# EVACUATORI PNEUMATICI

PNEUMATIC EJECTORS / PNEUMATISCHE TEILEFÖRDER  
ÉVACUATEURS PNEUMATIQUES

## EVACUATORI PNEUMATICI

PNEUMATIC EJECTORS / PNEUMATISCHE TEILEFÖRDER / ÉVACUATEURS PNEUMATIQUES

- IT** Meccanismo di trasferimento di materiali attraverso sistema pneumatico vibrante, di dimensioni molto ridotte, applicabile anche in punti di scomoda evacuazione dei pezzi. Attraverso una slitta si possono applicare scivoli di dimensioni diverse, a seconda delle esigenze applicative; tale slitta è provvista di un sistema di regolazione dell'inclinazione. Il sistema viene attivato tramite allacciamento alla rete dell'aria compressa, preventivamente filtrato da un regolatore di pressione da 2 a 5 bar. La velocità di lavoro è regolabile attraverso una valvola di ottone inserita direttamente nell'attrezzo.
- EN** Material conveyor mechanism through pneumatic vibrant system, with very small dimensions, applicable even in evacuation uneasy situations. Depending on application requirements, by mean of a slide, different sizes of plates can be applied, this slide is equipped with an adjustment sloping system. This system is activated through compressed air connection previously filtered through a pressure regulator from 2 to 5 bar. Work speed is adjustable through a brass valve directly inserted in the tool.
- DE** Transportmechanismus für Teile. Die Bewegung erfolgt durch ein schwingendes pneumatisches System, dass an einigen Punkten befestigt werden kann. Je nach Anforderungen können Transportbleche unterschiedlicher Abmessungen angebracht werden. Die Bleche haben ein Regelsystem der Neigung. Der Schlitten hat ein Regelsystem der Neigung. Das System wird mit Pressluft betätigt, die Pressluft sollte von einem Druckregler von 2 bis 5 bar geregelt werden. Die Arbeitsgeschwindigkeit, ist über ein Messingventil das direkt in das Gerät eingebaut wurde, regulierbar.
- FR** Mécanisme de transfert de matériel par un système vibrant pneumatique, de très petite taille, applicable également dans les points d'évacuation inconfortables des pièces. Grâce à une glissière, il est possible d'appliquer des goulottes de différentes dimensions, selon les besoins de l'application. Cette glissière est équipée d'un système de réglage de l'inclinaison. Le système est activé par le raccordement au réseau d'air comprimé, préalablement filtré par un régulateur de pression de 2 à 5 bars. La vitesse de travail est réglable grâce à une vanne en laiton insérée directement dans l'outil.

 GRÖSSE STROMVERSÖRGUNG  
 DIMENSIONS CENTRALE  
 161 x 171 x 82 (h) mm

**LA CENTRALINA SUPPORTA UN EVACUATORE**  
 THE CONTROL UNIT SUPPORTS AN EJECTOR  
 DIE STROMVERSÖRGUNG STÜTZT BIS ZU EIN SCHWINGFÖRDER  
 LA CENTRALE SOUTIENT UN ÉVACUATEUR

**8054.001 CENTRALINA/ POWER SUPPLY CONTROL UNIT/ STROMVERSÖRGUNG**

- Interruttore on/off / On/off switch  
On/off schalter / Interrupteur on/off
- Potenzimetro / Potentiometer  
Potentiometer / Potentiomètre
- Spia luminosa standby / Standby warning light / Standby-kontrollleuchte / Témoin lumineux standby
- Relè di sicurezza-motore  
Engine safety relay  
Motorschutzrelais  
Relais de sécurité pour moteur

- Tensione di ingresso  
Input voltage  
Eingangsspannung  
Tension d'entrée  
110±240 Vac- 50 Hz
- Tensione di uscita-limitato in corrente  
Output voltage-current limited  
Ausgangsspannung -strom begrenzt  
Tension de sortie limitée en courant  
24 Vdc 2 amp
